Hear God's Voice Through Your Dreams

God speaks again and again, though people do not recognize it. **He speaks in dreams**, in visions of the night when deep sleep falls on people as they lie in bed. He whispers in their ear...with His warning. He causes them to change their minds; He keeps them from pride. (Job 33:14-17 NLT)

God has declared that one of the primary ways He will communicate with His people is through dreams (Num. 12:6; Acts 2:17). Yet in western Christianity, many do not even take their dreams seriously, much less know how to interpret the symbolism in them. Throughout the Bible, from Abraham in Genesis to John in the book of Revelation, God spoke through dreams and visions. He is still doing so today. In typical Daniel-like fashion, you will learn to hear from God in this way, allowing Him to grant you the interpretation of your dreams.

You can (*and will*) do it

Not only will you receive powerful, life-changing information at this seminar, but also practical, hands-on experience. Every step of the way you will be applying what you have learned by helping to interpret the dreams of those around you. At various times throughout the seminar volunteers will be asked to come to the front and read a summary of a recent dream. The rest of the group will then, under the supervision of Dr. Virkler and the guidance of the Holy Spirit, collaboratively help the dreamer to discover the meaning of his dream. You will learn by doing, not simply by listening. Come prepared to participate!

“I’ve learned to discern the voice of God through dialoguing and dreams. **To think, all of these years He may have been trying to speak to me and I didn’t know how to listen to Him.** Hearing God and allowing Him to be the Wonderful Counselor He truly is has totally changed my life.”
