

2-7-2007: Three days after prayer and before taking of new blood test. Still with ulcers on her mouth and skin ulcerations as well as painful blood clots in both legs.

2-22-2007: Two days after receiving her negative blood tests and nearly three weeks after the night of her healing. Ulcers gone. Skin color changed and skin still clearing. Blood clots gone. No pain. Just the discomfort of being 36 weeks pregnant. *smile* (But now able to deliver naturally)
